Product Brief

Crewing

SERTICA offers a comprehensive crew solution designed to manage crew activities and payroll more efficiently. Optimize crew deployment with all data of your seafarers in one system and reduce the administrative burden. Set up warnings if a seafarer needs to renew a certificate and eliminate manual routines with an interface to the SERTICA Fleet Management system.

Modules

- Crew Management
- Crew Management Web App
- Crew Portal Web App
- Payroll Administration

Benefits

- Efficient crew planning and scheduling
- Improved communication and collaboration
- Enhanced crew welfare and well-being
- Optimized ship operations and crew deployment
- Comprehensive overview of all crew and crew activities
- Streamline processes in one system (fleet management, crewing, and payroll)
- Detailed payroll information and reports

BY RINA

Modules

Crew Management

Register and store crew history and information such as onboard periods, courses, illnesses and travel to improve long-term planning. With advanced search, you can find the optimal crew members for a scheduled crew change. Items like valid certificates, leave, availability, and check for overlapping schedules are all in force during the system search – making Crew Planning easy and efficient. Learn more.

Payroll Administration

Manage salary accounts in different languages and multiple currencies with support for various national tax rules. Simplify your payroll processes by setting up reports and interface your payroll to existing accounting systems. You can also set up monthly routines to include electronic transfer of pension, compensation, statistics, and money transfer to banking systems. Learn more.

Crew Management Web App

Manage and monitor crew and vessel activities from your mobile device. From overseeing crew details, planning schedules, to ensuring certificate compliance, the Crew Management Web App streamlines operations. With its real-time synchronization, everyone can swiftly adapt to changes, ensuring optimal crew deployment and compliance with industry standards. Learn more.

Crew Portal Web App

Empower seafarers with a centralized platform optimized for all devices, facilitating seamless communication, and access to important crewing data. Whether reviewing payslips, accessing key documents, or staying updated with training schedules, the Crew Portal Web App ensures every seafarer is informed and connected, enhancing overall crew coordination and compliance. Learn more.

Digitalize your fleet

SERTICA is the ultimate all-in-one solution for ship management, providing digital tools for maintenance, procurement, HSQE, crewing, performance, vessel reporting and electronic logbooks.

Our software is developed in close co-operation with leading shipping companies worldwide and onboard more than 2000 ships. SERTICA allows ship operators to optimize performance, increase transparency and improve data management.

But SERTICA is more than just software. We offer solid technological platforms with a proven track record complimented with proper training, implementation, project management, support and integration to third party software.

SERTICA is developed by RINA Digital Solutions headquartered in Aalborg in Denmark and supported by more than 200 offices in the world.

We believe in collaboration and partnership, and we know that the right support makes all the difference in the world. That is why we make it our business to go beyond what is expected.
