

Product Brief

Vessel Reporting System

Navigating the increasing number of regulations and reporting requirements onboard ships can be tricky without a digital solution. Classic noon reporting systems and the use of paper or Excel often fall short in delivering clean and correct data. But with SERTICA Vessel Reporting System (VRS) you can provide the support your crew need to generate accurate and efficient reports.

Reports

Enhance operational efficiency and compliance with a complete set of integrated digital reports. The VRS offers standard reports for decarbonation and performance as well as customized reports.

Set up a sequence of reports based on calculated and validated data. Example of a sequenced report:

- Departure report
- BOSP/COSP report
- Noon reports
- EOSP report
- Arrival/Berthing report

Benefits

- Improve efficiency and reduce costs
- Ensure compliance with regulations
- Analyze data for better insights and decision-making
- Reduce fuel consumption
- Simplify reporting and reduce the burden onboard
- Digital reporting to minimize effort
- Professional implementation and project management

Learn
More

Modules

Decarbonization Reports

- Carbon Intensity Indicator and CII rating
- Global Sulphur Cap
- EU MRV
- IMO's Data Collection System (DCS)

Performance Reports

- Fuel balance
- Energy Efficiency Operational Indicator (EEOI)
- Performance Monitoring
- Voyage Performance Analysis

Customized Reports

- Engine performance
- Bunker survey
- Scrubber waste
- Charter
- Port calls

CII Simulator

- Current status of CII
- Year-end CII levels
- Influence of voyages and port stays on CII
- Effect of operational changes and energy-saving measures on CII

Digitalize your fleet

SERTICA is the ultimate all-in-one solution for ship management, providing digital tools for maintenance, procurement, HSQE, crewing, performance, vessel reporting and electronic logbooks.

Our software is developed in close co-operation with leading shipping companies worldwide and onboard more than 2000 ships. SERTICA allows ship operators to optimize performance, increase transparency and improve data management.

But SERTICA is more than just software. We offer solid technological platforms with a proven track record complimented with proper training,

implementation, project management, support and integration to third party software.

SERTICA is developed by RINA Digital Solutions headquartered in Aalborg in Denmark and supported by more than 200 offices in the world.

We believe in collaboration and partnership, and we know that the right support makes all the difference in the world. That is why we make it our business to go beyond what is expected.
